Cast your line on the Zambezi River above Victoria Falls with half-day and full-day fishing excursions guided by experienced local anglers. The Zambezi is home to over 75 species of fish, including the legendary Tiger Fish — widely regarded as one of the finest fighting fish in the world. No prior experience is needed, making these trips equally rewarding for seasoned anglers and first-timers alike. Wildlife viewing along the river adds to the experience, from hippos to soaring eagles. The **half-day option** runs either morning or afternoon and covers the best fishing areas with all tackle and refreshments included. The **full-day option** extends the adventure with additional time on the water and includes lunch. A catch-and-release policy is in place on all trips. Fly fishing can be catered for on request.
